DAO BASED ECONOMIC TRADE-OFF

GTC strives to become more than just a P2E game or a crypto metaverse. Using artificial intelligence coded based on human behavior, the goal is to become a DAO with near real-life dynamics. Thereby incentivizing both law-abiding and law-neglecting behavior. Right from the start, the incentive-based economy is basic and straightforward, but as time passes the AI improves and the DAO advances. Providing a more dynamic experience. Grand Theft Crypto then becomes more and more a realistic economic trade-off, as indicated below.

abide the Law

VS

neglect the Law

PASSIVE INCOME
Advanced PROPERTY INSURANCE
Advanced LIABILITY INSURANCE
PROFIT FROM SEIZED ASSETS
LIMITATIONS IN P2P GAMEPLAY

SHORT TERM INCOME INFLUX
LIMITED PROPERTY INSURANCE
LIMITED LIABILITY INSURANCE
ENTRANCE TO BLACK MARKET
LIMITLESS P2P GAMEPLAY

The ownership of virtual land will be indicated in the form of a non-fungible token (ERC721)

The virtual world “Encrypta” is inspired by Cartagena, Colombia a famous harbor city. The dimensions will be roughly the same, with some pre-build locations to set the famous colorful atmosphere. Landowners can (under certain laws that are subject for change) freely build and create their own household in the GTC-Verse. To protect asset loss land ownership cannot be lost, landowners can only be punished or rewarded in the form of lost or gained income, based on an advanced behavior penalty system introduced later in-game.

Only in the form of an ERC721 token / NFT (short for non-Fungible-token) land parcel can be minted, this is done with Ethereum in stage 1, and the native token in stage 2. The token is the absolute proof of ownership and thereby irreplicable, not mistaken for untransferable. Public landowners will be able to transfer and sell their land parcels on peer-to-peer platforms. With every land parcel minted 50% of the received Ethereum is used to buy back and destroy a part of the supply. This is a major aspect of the return strategy developed for our investors, as it will create long-term price inflation.

Additionally, 20% of the Ethereum collected with every parcel minted will be collected and used to buy our very own Decentraland parcel in Genesis City, where the GTC Whitehouse will be located. The left wing is a peaceful place for our top law enforcers to settle and govern the GTC-Verse. The right wing (as the game is a big trade-off) is a place where our law neglecters will govern the lucrative black market. The Whitehouse is mainly symbolic for our autonomous organization and will not be publicly owned. Thus, only open for leisure activities. It does create additional intrinsic value in the metaverse.

The given information below is subject for change

PHASE 1

PUBLIC MINT

- ✓ NFT PRESALE
- ✓ MINT USING ETHEREUM 
- ✓ PRESALE MINT PRICE: 0.1 ETH
- ✓ PUBLIC MINT PRICE: 0.2 ETH

ESPECTED DATE: 3-2022

PHASE 2

SECONDARY MARKET

- ✓ DIGITAL OCEAN
- ✓ PURCHASE USING ETHEREUM 
- ✓ FLOOR PRICE: YET UNKNOWN
- ✓ ROYALTIES: 10%

ESPECTED DATE: Q1 2022

PHASE 3

GTC MARKET

- ✓ IN-GAME MARKETPLACE
- ✓ BUY USING NATIVE TOKEN
- ✓ PARCEL PRICE: 1 ETH
- ✓ TOKEN BURN: 100%

ESPECTED DATE: Q3 2022

The native token is an ERC20 token deployed on the Ethereum network

The \$GTC token is the main in-game currency used to fight your way to financial freedom. Using the currency citizens will be able to make use of countless services. It's up to you to decide how to spend it. Will you invest it in a lucrative shop and flip it? Or buy some live concert tickets for you to watch with your girlfriend. Perhaps you want a club house for your motor gang to hang out. Being a rightful citizen of Encrypta gives you endless possibilities. After a bigger market capitalization, the land parcel can only be minted with GTC tokens. Thereby creating a domino effect and boosting price inflation even further.

Saving systems already known from traditional banking will be introduced in-game. When you decide to open a bank account and store GTC tokens you have the option to pool the tokens to a boosted staking pool, thus locking the tokens for a given period of time. With an APY up to 20% higher than the non-boosted counter variant citizens are greatly incentivized to do so. Citizens with a debit bank-account also receive a 2% spend back in-game, this to boost the economy. Keep in mind that monetary policy might change as the GTC-Verse develops.

A safe storage of value thanks to investing and reinvesting in the overall crypto market. On top of this we plan to dedicate 25% of the funds to a USDC liquidity pool used to profit from big market swings. This way a sustainable and low-risk revenue form is created for all our investors to profit from. After a market capitalization of 10 million we also want to obtain a community chosen NFT we can all share and wear with pride, starting with Decentraland parcel. Using these strategies, the liquidity is diversified, and sustainability is ensured.

Grand Theft Crypto, ERC20 project focused on bringing a realistic (DAO based) economic trade-off to the Metaverse. See info below.

TOKEN DETAILS

TICKER: GTC

Standard: ERC20

Max. Supply: 15 Mil.

Gen. Supply: 15 Mil.

Initial Circ. Sup: 3 Mil. (20%)

All. Pub. Launch: 1.5 Mil. (10%)

Presale Allocation: 1.5 Mil (10%)

Presale Price: 0.10 USD

Launch Price: 0.16 USD

Presale Vesting: 3 months

ETA: 2-2022

Vesting Lock up Schedule

Tokens awarded to presale participants receive lower prices balanced by a longer lock-up period

Week 1: 23%

Week 2: 30%

Week 3: 37%

Week 4: 44%

Week 5: 51%

Week 6: 58%

Week 7: 65%

Week 8: 72%

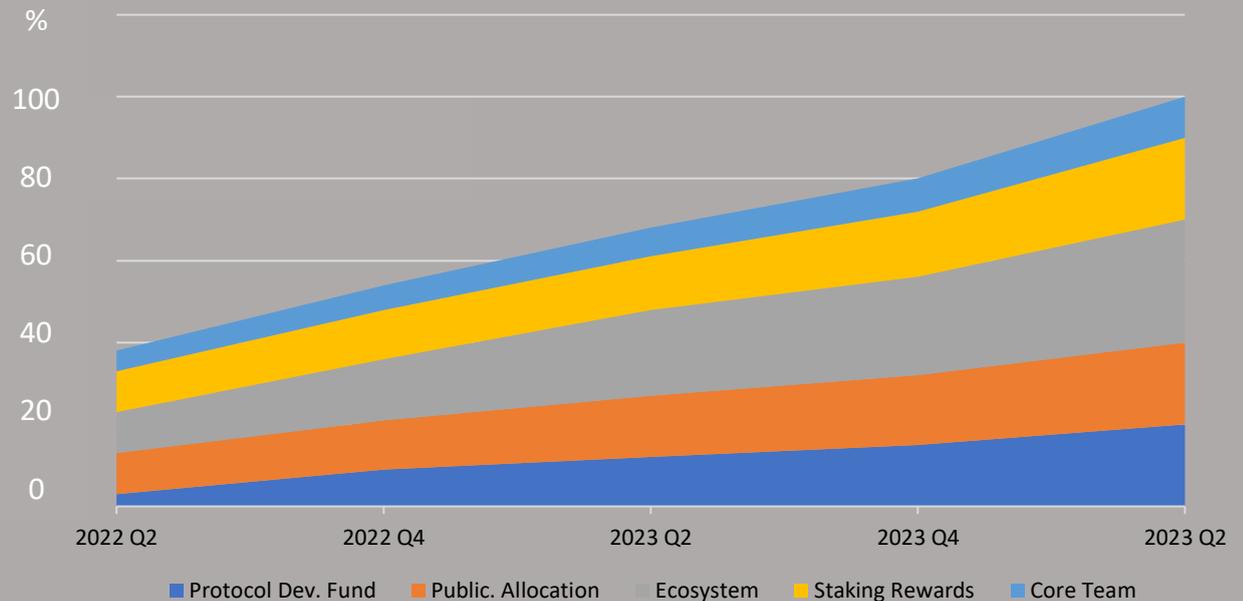

Week 9: 79%

Week 10: 86%

Week 11: 93%

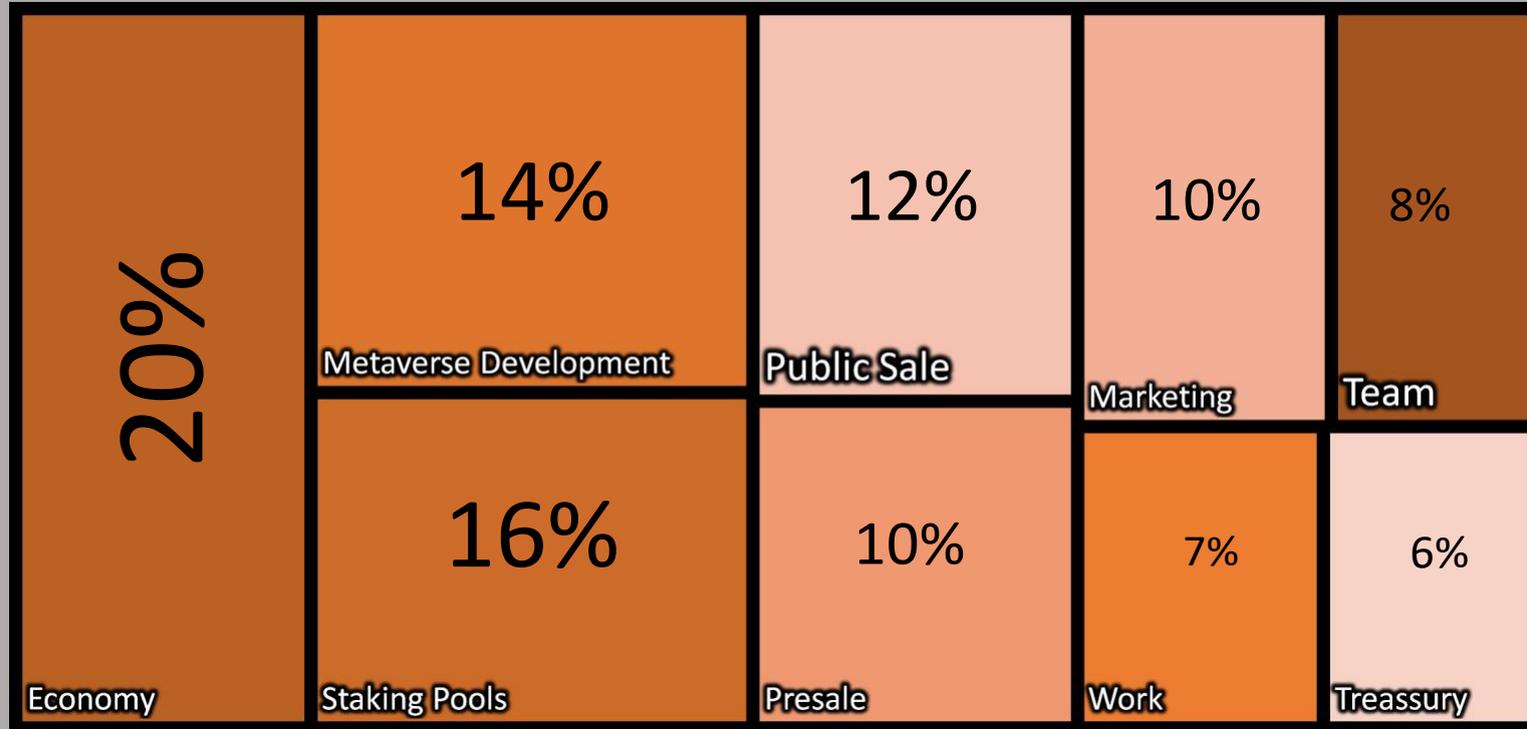

Week 12: 100%

Emission Schedule

The allocation of circulating token supply after the passing of a total of 2.5 years.

GTC tokens present no security or financial instrument whatsoever. When buying the token, you agree to these terms. Tokens do not equal the right to vote, claim or manage the profits or proceeds in any jurisdiction. The GTC team does not provide any form of financial advice or assure a return on your assets, the team is uncountable for any losses or taxes you may incur. Investing is always at your own risk. Do your own due diligence.

Our team will attend to you as well as we can, this is why we offer 24/7 attendance. The support-related question should be mailed to: support@grandtheftcrypto.org; for partnerships or promotion-related inquiries please contact us at: management@grandtheftcrypto.org.

Happy investing,

greeting the GTC Team.
